Partner, VP of GCS

Matt Todd  
Sr Consultant

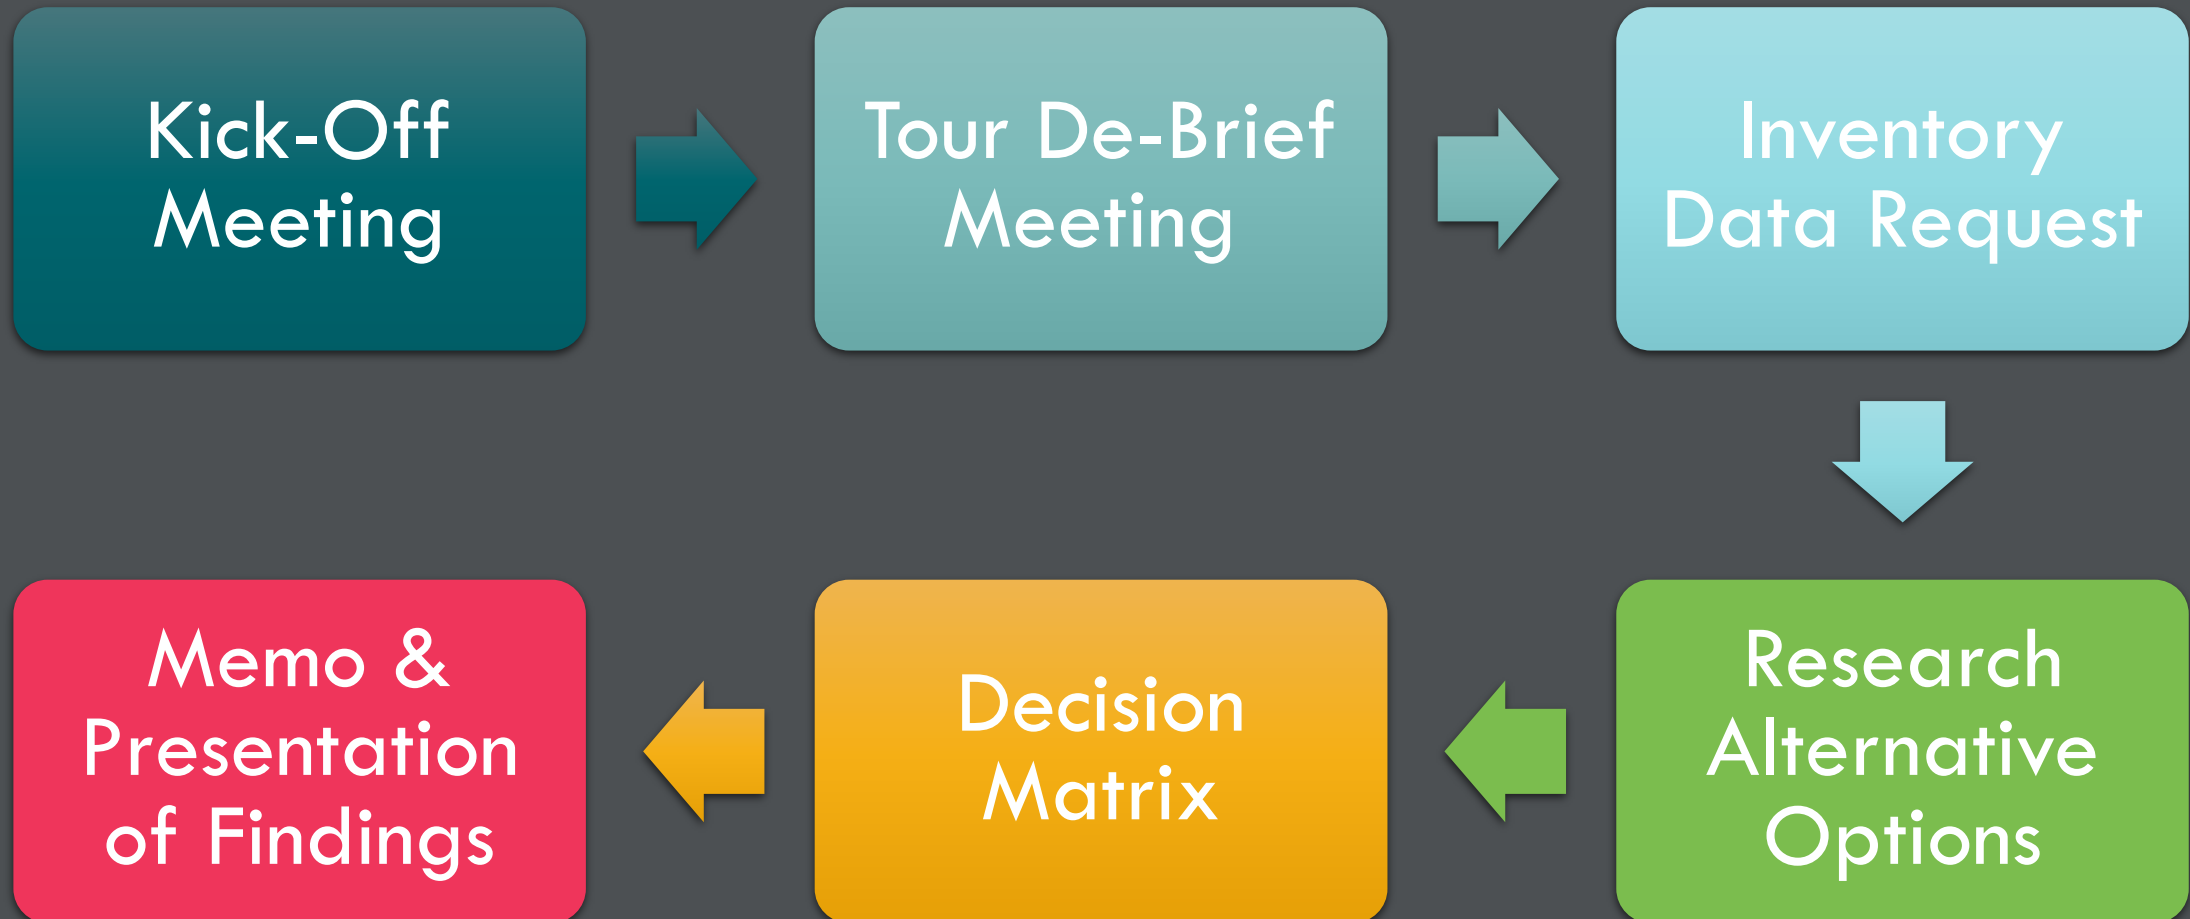

Matt Naud  
Sr Consultant

A black and white photograph showing a hand holding a clear plastic bottle. The background is filled with various pieces of plastic waste, including crumpled plastic bags and other debris, creating a textured, out-of-focus backdrop.

# PROJECT APPROACH

- ☒ Build inventory of current single use plastics at the cafeteria
- ☒ Gather input from the tours
- ☐ Research alternatives – identifying infrastructure and management system for alternative items
- ☐ Present prioritize list of options based on analysis

# PROJECT STEPS
