September 28, 2021

Fremont Township Highway Commissioner

Ms. Alicia Dodd

22376 West Erhart Road

Mundelein, IL 60060

Dear Alicia,

The water issues on West Harvard Avenue had been a problem for many, many years, as you know. For the eleven homeowners who continually had serious flooding issues, we applaud you and your team for resolving this issue. It took many meetings, time and commitment on your behalf to get this accomplished.

We would also like to thank your staff, Mike Nelson, Mike O'Kelly, Sean Krauth, Brian Spencer and Luke Paris, for all their efforts in helping to resolve the water issues on West Harvard Avenue. Your crew worked diligently out on the golf course every day until the project was completed. They did a fantastic job!

Herb Riedel was instrumental in coordinating the equipment requirements. Thanks for getting the equipment there each day and really helping the project run smoothly.

This project would not have been successful without the team at the Storm Water Management Commission: Mr. Kurt Woolford, Executive Director, Mr. Brian Frank, Chief Engineer and Ms. Juli Crane, Principal Wetlands Specialists. This team, drew up the design plans of the elevation for the water shed swale, submitted the permit for the water shed to the Village of Mundelein, brainstormed solutions, attended meetings on site and oversaw the project from start to finish. This project became a reality because of your efforts and diligence. Thank you.

Thanks to Mr. Tim Miles Sr. and Mr. Tim Miles Jr. from Golf Vision and the Village Green Golf Course staff were critical in making sure the course was clearly marked for golfers so the Fremont Township crew could accomplish the job. Thanks for helping this project become a reality.

Alicia, your knowledge regarding the grant was critical to getting this project kick started. You filled out the application, met with all the above mentioned people to coordinate and get this project started and completed. Thank you for a job well done, from all of us on West Harvard Avenue. Kudos!!!

Sincerely,

*Margene L. Sinclair*
