Board of Health Report.

Board of Health Report for Ann Maine – June 2017

Rx for Health: Walking in Nature

The 2017 Rx for Health walking season continues through October.

The next two walks are scheduled for:

Saturday, June 17 at Greenbelt Forest Preserve in North Chicago (1110 Green Bay Road).

Saturday, July 15 at Old School Forest Preserve in Mettawa (28285 St. Mary's Road).

All walks are from 4:00 – 5:30 p.m. and range in length from 1 to 2 miles. Everyone can walk at their own pace and distance.

Walks are guided by a NorthShore physician and a Lake County Forest Preserve naturalist and are accompanied by staff from the Lake County Health Department and Community Health Center.

The walks are open to all ages, but those 16 and younger must be accompanied by an adult. These are rain or shine events and except for service animals, no pets are allowed. Learn more at: <http://www.livewelllakecounty.org/rxforhealth/>.

The simple act of walking, especially in nature, can improve one's overall health, both physically and mentally.

Protect Your Family from Ticks

This is the peak time of year for tick activity. Take precautions against ticks, which can carry diseases such as Lyme disease.

Ticks like long grass and other vegetation. Keep your lawn short, clear leaf litter from around your yard, and stay on trails when in forest preserves and parks.

Apply insect repellent containing DEET, carefully following label directions. Supervise children in the use of repellents.

When outdoors, check yourself, your children, other family members, and your pets for ticks every two to three hours.

Attached ticks should be promptly removed with tweezers to help prevent infection, followed by immediate washing of the bite site with warm, soapy water. Watch the three-minute video "How to remove a tick" on the Lake County TV channel on YouTube.

Learn more on the Health Department's website, www.FightTheBiteNow.com.

June is National Pet Preparedness Month

During an emergency, a pet may be scared and disoriented. Familiarizing your pet with crates and carriers can help reduce stress if they must be confined or transported during an emergency. Also take your pet on practice trips so they will not react in a negative way during an emergency.

Have your pet microchipped. Before a crisis occurs, you should update your emergency contact information with the chip company or another pet ID enrollment. If your local law enforcement or animal control has a database, make sure to give them the information as well.

A pet should always be fully vaccinated, as during an emergency it may be required if your pet needs to be boarded.

Your pet's rabies vaccinations are required to be registered with the county. This registration could help identify your pet if you are separated.

Pets should wear a collar or harness with rabies tag and other ID tags at all times.

Lastly, keep a pet emergency supply kit with important paperwork as well as a few days of food and other daily needs.

Two Upcoming Low-Cost Pet Vaccination Clinics

The Lake County Health Department and Community Health Center's Animal Care and Control Program is providing two upcoming low-cost pet vaccinations to Lake County residents. These clinics provide a convenient and affordable way to keep pets up to date with their shots and rabies tags. Microchip services are also offered.

Antioch-Lake Villa Township will host a clinic on Saturday, June 24 at the Lake Villa Township Building, 1625 Deep Lake Road.

The Zion Park District will host a clinic on Saturday, July 1 at Bethel Boulevard & 27th Street in Zion.

The clinics take place from 9 a.m. to noon and are open to ALL Lake County residents.

Pets are taken on a first-come, first-served basis. All animals must be at least 4 months old. Dogs must be leashed and cats placed in carriers.

Only cash is accepted on-site and at the time of service. Proof of spay/neuter may be required.

For additional information, including prices and a list of all upcoming clinic dates and locations, visit the Animal Care and Control web page or call them at 847-377-4700.

Lake County Partners Report.

*LAKE COUNTY PARTNERS COUNTY BOARD UPDATE
JUNE 2017*

Flexan, LLC Groundbreaking Underscores Lake County's Prominence as Medical Device Manufacturing Hub

Flexan, LLC, a custom-molded rubber manufacturer, recently held a groundbreaking to celebrate the company's decision to locate its global headquarters in Lincolnshire. The company currently operates a 65,000-sq. ft. facility in Chicago, and had previously operated 3 buildings totaling 22,000 sq. ft. in Elk Grove Village. As the silicone contract manufacturing for medical devices has expanded, Flexan has experienced rapid growth and sought to consolidate the 3 Elk Grove Village facilities into a single facility in Lincolnshire. The new 70,000-sq. ft. building will house all of Flexan's existing equipment and 100 highly-skilled employees, and it has the potential to add additional capacity as the company continues to grow.

Lake County is home to over 700 medical device and tooling businesses with 50 medical-related corporate headquarters and an estimated 20,000 employees, making the industry an important part of the local economy. Lake County Partners worked closely with Flexan staff throughout the site selection process to ensure that the relocation would be seamless. The Workforce Ecosystem partners are also prepared to assist Flexan as they get established in Lake County and begin to tap into the deep pool of local talent. Lake County Partners has many resources to assist businesses looking to relocate to or expand in Lake County. Information on available services can be found at www.lakecountypartners.com
