HEALTH AND COMMUNITY SERVICES COMMITTEE

51 **19-0099**

Board of Health Report.

Tobacco 21 Update

On Sunday, April 7, 2019, Illinois Governor Pritzker signed Tobacco 21 into law.

Effective July 1, the legal sales age for tobacco products and electronic smoking devices in Illinois will be raised from 18 to 21.

The Lake County Board and Board of Health celebrates the passage of the Tobacco 21 law which will help prevent the next generation of smokers in Lake County. We would like to recognize the Health Department team, community members and student groups who have worked to advance Tobacco 21 policy, and the 13 municipalities in Lake County who passed Tobacco 21 at the local level.

Measles Case in North Suburban Cook County

On March 27, the Cook County Department of Public Health reported a confirmed case of measles. The north suburban Cook County resident visited multiple locations along the Lake-Cook County border and may have exposed Lake County residents to measles. The Lake County Health Department continues to work with local and state agencies to monitor the situation and notify those who may have had contact with the infected individual.

Measles is a very contagious disease caused by a virus. It starts with fever, cough, runny nose, and red eyes. Then a rash of tiny, red spots starts at the head and spreads to the rest of the body.

If you are experiencing symptoms of measles, avoid going out in public. Call your healthcare provider right away to make arrangements for your evaluation so that you don't expose others.

The best way to prevent measles is with MMR vaccine. Make sure you and your family are up to date on your immunizations. If you are not sure of your vaccination status, speak with your doctor.

From January 1 to March 28, 2019, 387 cases of measles have been confirmed in 15 states, including 7 cases in Illinois.

For more information, visit the Health Department website or contact the Communicable Disease program at (847) 377-8130.

Lake County Partners Report.

*LAKE COUNTY PARTNERS COUNTY BOARD UPDATE
April 2019*

Businesses Easily Tap into Young Talent in Lake County

Lake County stands out as a place where companies can easily connect with and nurture young talent, as evidenced by two recent partnerships.

1. The Baxter Center for Science Education recently opened a Lake County branch at Round Lake High School to provide students with access to lab equipment and teachers with cutting-edge life sciences training. The program is a collaboration among Northwestern University Office of Community Education Partnerships, the Baxter International Foundation and Round Lake District 116. It allows students to explore STEM careers and provides hands-on workshops, supported by Baxter engineers and scientists, for middle and high school teachers in northern Illinois and Wisconsin. The lab will serve as the regional hub for training suburban teachers and augmenting science education for suburban schools. The Baxter Center is also expanding its internship program at Round Lake High to provide resume assistance and interview coaching, to help students prepare for opportunities with local employers.

2. AbbVie also recently invested \$40 million to rebuild the Neal Math & Science Academy—the only middle-school in North Chicago. The existing school will be used as a new, larger facility is constructed on site to accommodate 625 students beginning in 2021. AbbVie intends for the school to be used as a model for other companies looking to

construct public schools. Last year, AbbVie employees dedicated 60,000 volunteer hours in the North Chicago school system.

Lake County's HydraForce Recognized by the National Association of Workforce Boards
Advanced manufacturer HydraForce was recognized by the National Association of Workforce Boards as the recipient of the 2019 W.O. Lawton Business Leadership Award for the company's engagement with Lake County high schools and the Lake County Workforce Ecosystem (Lake County Workforce Development, Lake County Partners, the College of Lake County and others) and its dedication to cultivating local talent. This is the fourth recognition that HydraForce has earned for its workforce development efforts—the most recent being the Talent Innovator Award presented by the Lake County Workforce Ecosystem at last year's Big Event.
