**CHAIR'S REMARKS**

*If this meeting were in person, I'd suggest that we give all of our Lake County Employees a very long and loud round of applause. I have been on daily meetings with department heads, countywide elected officials, and the County Administrators-Gary, Jim, Matt, and Cassandra-and we are incredibly fortunate to have this great team in this unprecedented crisis. Not only is there extensive collaboration and sharing of information, everyone has also been extremely flexible and willing to help each other. Our non-emergency staff is working from home, keeping themselves and others safe, and those who are leaving their homes and coming to the office every day have been doing an outstanding job. I started to list out all the stories of Lake County residents and employees going above and beyond but the list is so long, and I don't want to miss anyone. Suffice to say that when we are on the other side of this, there will be endless examples of people stepping up and continuing to provide exceptional service to the people of Lake County. I have had the privilege of attending meetings as teams are coordinating efforts around housing, financial assistance, employment, volunteer efforts, medical resources, and so much more and I can say that I am really proud of our exceptional team.*

*As part of the emergency response coordination, it is critical that we streamline processes and information to avoid confusion and to keep everyone focused on the crisis at hand. To that end, our County Administrator is the conduit of information both to and from the board. Gary has been providing daily updates, and you can expect to continue to receive more information from the County and the Health Department as our response efforts continue to ramp up.*

*Lastly, you may have heard that counties are looking into what authority we have to waiving the late fees for property taxes for a maximum of sixty days. Our State's Attorneys Office has stated that given the wording of the ordinance, we do not have the authority to do this. Another collar county has been given different direction, and we heard from the Governor's Office in the press conference last week that this decision is up to the counties. I did contact the Governor's Office and asked for clarification.*

*Please know that multiple departments and organizations are discussing this, including Lake County Municipal League. While property taxes are collected by the treasurer, the money is disbursed to taxing bodies across Lake County, and therefore any late payments directly affect them. Lake County is approximately 7% of everyone's tax bill, so we must be mindful of unintended consequence to the many different taxing bodies that make up the approximate other 93%. We want to do what we can to help our residents in this crisis, and we don't want to make the situation worse by delaying payments that could impact payroll or essential services of other government agencies.*

*We will continue to study this and Gary will keep the board informed of the progress.*
