Joint resolution establishing a subscription fee for license and use of the Enhanced Access to Court Records service.

- The Executive Justice Council (EJC) recently approved a project that will allow the public to access basic court records, E-filing for civil cases and enhanced access to court records.
- Enhanced access to court records will create a second records access tool for high volume users of the court records. This tool will require the user to annually register to receive a user name and password. The Circuit Clerk’s Office will be administering the enhanced access functions.
- It is appropriate for this service to be supported by a subscription fee that is paid annually by the user. Following a review of the staff support and maintenance for this service and a review of what other area counties are charging, the EJC and the Circuit Clerk’s Office recommend establishing a yearly subscription fee of \$240 per user for license and use of this service.
- The Circuit Clerk’s Office will begin rolling out enhanced access in late September, 2013.
