Resolution amending the Lake County Purchasing Ordinance in compliance with the laws of the State of Illinois.

- The State of Illinois enacted Public Act 096-0170 changing Section 5-1022 of the Counties Code regarding the dollar threshold at which contracts are competitively bid.
- Currently, the dollar threshold at which contracts are competitively bid for goods, services and construction, materials, equipment or supplies is \$20,000 and the dollar threshold for the use, purchase, delivery, movement, or installation of data processing equipment, software or services and telecommunications inter-connect equipment, software, and services is \$25,000.
- The Act increased the dollar threshold for goods, services and construction, materials, equipment or supplies from \$20,000 to \$30,000 and revised the threshold for the use, purchase, delivery, movement, or installation of data processing equipment, software or services and telecommunications and inter-connected equipment, software and services, from \$25,000 to \$35,000.
- This Act is effective January 1, 2010; therefore, there is a need to update the Lake County Purchasing Ordinance, revising the thresholds to reflect these changes.
