Presentation on the 2010 Land Use Inventory Map and Findings.

- The Planning, Building and Development Department has completed an assessment of the countywide land use as of 2010, and staff has prepared a map exhibit and summary report of trends for the 2000 to 2010 period.
- The land use inventory will be made available via Lake County Maps Online and is used by other internal and external entities as a resource to estimate project impacts, evaluate stormwater and transportation needs, and for research projects.
