File #: 13-0467, **Version:** 1

Approval of the 2013 Application Form for the HOME Program

- The HOME application process was delayed in the fall in anticipation of the new HOME rule and the conclusion of HUD technical assistance.
- All HOME participating jurisdictions in the Chicago region collaborated with assistance from a HUD technical assistance provider to construct a common HOME application.
- While the HOME rule has been delayed again, the common application is complete. We seek approval of this document to initiate the 2013 application process.
