### Board of Health Committee Appointments - Waxman

Due to changes in the membership of the Board of Health, committee assignments need to be updated. Upon examination of the Board of Health Bylaws that were updated in 2009, it was discovered that the Budget Committee and Personnel Committee both need to have five appointed members. Both committees currently have four appointed members. The proposed changes to the committee appointments address both the changes in membership and bring the appointments into compliance with the bylaws. These appointments are for the remainder of this term, which is through the end of 2010.

To approve the committee appointments as proposed by President Waxman.
