Joint resolution authorizing a professional services agreement with RJN Group, Inc. in the amount of \$120,000 for engineering services for the Southeast Lake FPA Smoke Testing Project.

- The Des Plaines River Water Reclamation Facility (WRF) and Southeast Interceptor Sewer serve the Villages of Bannockburn, Buffalo Grove, Deerfield, Hawthorn Woods, Lake Zurich, Lincolnshire, Long Grove, Riverwoods and unincorporated portions of southern Lake County.
- After a quality based selection process, RJN Group was awarded a contract to install and monitor sixteen flow monitoring stations within Lake County's Southeast Lake Facilities Planning Area (FPA) for the purpose of identifying and quantifying infiltration and inflow sources within the subareas.
- As a result of the flow monitoring, high storm water inflow rates have been identified in three sub areas: Forest Lake, Long Grove north of Route 22, and Long Grove south of Route 22.
- To identify inflow sources, the best available technology is to smoke test the sanitary sewers.
- Smoke testing is a specialized service that RJN Group, Inc. can perform.
- As a result of RJN's work on the system and their successful work on other sewer projects, it is recommended a professional services agreement be authorized.
- This resolution authorizes and directs the County Purchasing Agent to execute an Agreement for Professional Services with RJN Group, Inc. of Wheaton, IL in the amount of \$120,000 for this work.
