Joint resolution authorizing an emergency appropriation for Lake Michigan watershed planning by the Stormwater Management Commission (SMC) in the amount of \$161,000 and funded by the grants from the Illinois Department of Natural Resources (IDNR).

- SMC has entered into an agreement with the IDNR for a grant (Grant N-17-07-02) from the National Oceanic and Atmospheric Administration (NOAA) Coastal Management Administration Awards Program for watershed planning in Lake Michigan drainage areas.
- Total project costs are \$200,000, and SMC will utilize both the Coastal Management grant and local match funding. An emergency appropriation is needed as funds for this grant and local funding sources are not included in the current year budget.
- SMC will be the project lead and will produce a plan to meet current state and federal guidelines for watershed-based planning. SMC will be reimbursed for staff time spent on the project.
