Resolution approving an hourly and annual salary schedule that list pay grades assignments and pay grade ranges for all nonunion County positions.

- The County contracted with Buck Consultants to conduct a market analysis and recommend a salary schedule that is competitive with the Chicagoland metro market and reflects best practices.
- In an effort to establish pay parameters, pay ranges consisting of minimums, midpoints and maximums were established.
- Each nonunion position is assigned to a pay grade based upon criteria established by Buck Consultants that relatively ranks positions using industry accepted compensable factors.
- The pay ranges and pay grade assignments are based upon a public/private sector market survey conducted by Buck Consultants in 2014.
- Positions were evaluated using newly established criteria and assigned to the new market adjusted pay grades.
- 125 employees earned salaries that are below the new pay grade minimums.
- The cost to bring these employees' salaries to the new pay grade minimum is approximately \$420,000 annually or \$210,000 for fiscal year 2015.
- The cost of implementing the program is included in the 2015 budget.
