Resolution establishing the Lake County Video Gaming Revenue Policy.

- On August 13, 2013, the Lake County Board adopted the Lake County Video Gaming Ordinance, thereby permitting lawful video gaming within unincorporated areas of Lake County.
- On October 21, 2015, the Financial and Administrative Committee, on behalf of the Lake County Board, asked staff to research and prepare a policy that would regulate and standardize the use of video gaming revenue funds.
- Staff presented draft policies to and received direction from the Financial and Administrative Committee on April 27, 2016 and August 3, 2016.
- This policy establishes a framework for: (1) capturing video gaming administrative, legal, and enforcement costs; and (2) evaluating and possibly funding social programs, projects (excluding capital improvements), and/or services that benefit Lake County residents.
- Under this policy, the Community Development Department will administer and manage the awarded monies from the Video Gaming Management Center, consistent with the already-established process used for Community Development Block Grants and Emergency Solutions Grants. The Finance and Administrative Services Department will assist Community Development throughout this process.
