Joint resolution authorizing an Intergovernmental Agreement for the Lake County's diversion of flow into Buffalo Grove's force main.

- The Village of Buffalo Grove owns and operates its Port Clinton Lift Station and sanitary sewer force main on Port Clinton Road which discharges into the County's Des Plaines River Water Reclamation Facility.
- The County owns and operates the Teal Lane Lift Station and sanitary sewer force main, which is located along Port Clinton Road, near the Village's lift station and force main.
- The County sanitary sewer system, downstream from the Port Clinton and Illinois Route 83 area, has sewage capacity limitations that could be eliminated by diverting the Teal Lane Lift Station sewage flow into the Village's Port Clinton Lift Station and force main.
- The Village's Port Clinton Lift Station and force main have excess capacity available to accept the County's sewage flow.
- The County will design and construct a new force main to divert the flow from the Teal Lane Lift Station to the Port Clinton Lift Station. In addition, the County must reimburse the Village for recapture fees associated with the original construction of the Port Clinton Lift Station and pay users fees to the Village based upon the sewage flow into their lift station.
- The proposed agreement is for 30 years. This sewage diversion will eliminate the need for the County to perform extensive downstream improvements to its sewer systems. The cost to partner with Buffalo Grove is \$780,000 as compared with an estimated \$1,200,000 for the County to complete downstream improvements.
- This sewage diversion will eliminate the need for the County to perform extensive downstream improvements to its sewer systems.

RESOLUTION

WHEREAS, the County of Lake (County) owns and operates the Teal Lane Lift Station and associated sanitary sewer force main; and

WHEREAS, the Village of Buffalo Grove (Village) owns and operates a sanitary sewer force main and lift station along Port Clinton Road which delivers sewage to the County's Des Plaines River Water Reclamation Facility within the Southeast Lake Facility Planning Area; and

WHEREAS, the Village has available sewer capacity within its force main and lift station on Port Clinton Road and is willing to accept the sewage flow from the County's Teal Lane Lift Station; and

WHEREAS, in exchange for the use of the Village's force main and lift station, the County will connect to the Village's force main and pay recapture and user fees to the Village; and

WHEREAS, the County and the Village desire to enter into this Agreement to allow this connection, and use of the Village's lift station and force main capacity; and

WHEREAS, execution of this Agreement must be authorized by resolution of this County Board.

NOW, THEREFORE, BE IT RESOLVED, by this County Board of Lake County, Illinois, that the Chair of the County Board and the Clerk of said County be and they are hereby authorized and directed to execute the attached Intergovernmental Agreement for the County of Lake's Diversion of Flow into Buffalo Grove's Force Main, in the form substantially herein.

DATED at WAUKEGAN, LAKE COUNTY, ILLINOIS, on this 11th day of April, A.D., 2017.
