### Ordinance amending water and sewer related rates for certain Lake County systems.

- Chapter 51 of the Lake County Code of Ordinances establishes all water and sewer user rates, connection fees and additional charges for use of the County's water and sewer systems.
- The Ordinance is revised periodically to modify rates and fees, as necessary.
- Staff has worked with Burns and McDonnell, Inc. to complete a water and sewer rate and connection fee study to ensure that the County is maintaining and generating sufficient funds for operations, maintenance, depreciation, debt service and re-capitalization of assets.
- The amended Ordinance modifies several water and sewer rates and connection fees. Specific rates and fees are established for Fiscal Year 2020. Percentage increases are also identified for future fiscal years, but the county Board can modify the rates during the annual updates to the ordinance.
- The minimum retail water bill is replaced with a domestic meter service charge that increases by meter size.
- The water rate differential between the low use and highest use block rate was increased to 10 percent to support conservation.
- Notice will be provided to the County's municipal partners impacted by the changes to Chapter 51 of the Lake County Code of Ordinances that will become effective December 1, 2019.
