Resolution adopting the 2019 Solid Waste Management Plan Update (Plan Update) for Lake County, Illinois, as approved and recommended by the Solid Waste Agency of Lake County (SWALCO).

- In 1989, Lake County adopted the first Lake County Solid Waste Management Plan prepared by the Joint Planning Agency, and it has been updated every five years as required by the Illinois Solid Waste Planning and Recycling Act.
- SWALCO approved the draft 2019 Plan Update on November 14, 2019 after working with a Citizens Advisory Committee which approved the draft on October 8, 2019.
- SWALCO is requesting the Plan Update be considered and approved by the County Board.
- The Plan Update establishes a goal of achieving a 60 percent recycling and composting rate by 2030. The current rate is 39 percent.
- The Plan Update does not change the type of pollution control facility allowed in Lake County. It is still limited to landfills, transfer stations, and anaerobic digestors.
