### CQI Update - Hayes

The UDS Clinical Quality Indicator dashboard is attached. The green bars indicate health center performance for 2020. The blue bars indicate current health center performance. New measures include HIV screening, breast cancer screening, and depression remission. Current performance is similar to 2020 performance for several measures and has notably improved for the dental sealant and breast cancer screening measures. The Persistent Asthma Medication Compliance dashboard is also attached. The health center performance is just over 90% for this measure.

None, for information only.
