Joint resolution authorizing an Intergovernmental Agreement with the Village of Round Lake (Village) relating to water interconnection for system maintenance and emergency purposes.

- The County owns and operates the existing Brooks Farm water system, a groundwater well-supplied public water system, serving approximately 500 single-family residences within the Prairie Pointe subdivision.
- The Village operates a public water system, directly adjacent to Prairie Pointe, that is sourced by Central Lake County Joint Action Water Agency (CLCJAWA).
- The County and the Village have negotiated terms for an intergovernmental agreement to share the estimated \$50,000 cost to construct and install an interconnection between the County and Village water systems.
- The interconnection will allow the County and Village to supply water to each other when repairs are made or during emergency situations when the normal source of supply is unavailable.
- The Village approved the intergovernmental agreement at its June 2018 Village Board meeting.
