

Lake County Illinois

Legislation Text

File #: 18-0793, **Version:** 1

Appointments to ServicePoint Coordinating Council

- ServicePoint is a web-based data management tool utilized throughout the County by different organizations for different purposes.
- A Coordinating Council has been approved by the Lake County Board to coordinate and resolve disputes between different uses of ServicePoint and to respond to requests for data-sharing.
- There are four use types of ServicePoint that each elect two members to the Coordinating Council. For each use type, one representative will have an expertise at the policy level and the other will have expertise at the user level. The Lake County Board delegated the selection of Lake County's two members to the HCDC.
- HCDC Commissioner Daniel Venturi and staff member Eric Foote have agreed to represent the interests of the ServicePoint Referral Network on the ServicePoint Coordinating Council. Staff recommends them for appointment by the HCDC.

A vote is requested appointing two individuals to the ServicePoint Coordinating Council to represent the interests of the ServicePoint Referral Network.
